הוראות התקנה

01 Measure the height of the bicycle and choose the mounting height according to personal preference.

02 Use a marker pen to locate the position of the screw hole of the product to ensure the accuracy of the wall drilling operation

03 Put the expansion screw plastic sleeve into the drilled round hole, align the product with the expansion screw plastic sleeve and fix it with screws

04 Hang the bike on the main beam, or put the bike handlebar into the hook
